Education:

35 years of practice, theory and practice, safety and efficacy in Natural Medicines prevention and treatment methodologies. Andreas Nikolaou is the Founder and pioneer of the Health Sciences (Physiopathic) Neocropate in Greece and Cyprus who after many studies, observations and experience adopted many of the basic ideas and perceptions of Hippocrates and other Hippocrates and after linking all of this to the 2,500 years of vast knowledge and experience in the biological sciences, he established his own system of prevention, treatment and education.

NMD in Naturopathy and Holistic Medicine. UoA College of Natural Health Sciences
HND in TCM. College of Oriental Medicine London . U.K
Diploma Naturopathy/ Herbal Medicine . CNM College of Natural Medicine . UK.

Experience
Studied in many of the traditional areas of Natural Medicine and acquired many titles. Too many studies and proving of naturopathic, herbal and homeopathic medicines to myself and thus gained not only knowledge but also personal experience of natural therapeutic powers.

I practiced and continue to practice Naturopathy over 35 years by devoting all of my forces to the revival and implementation of new-Hippocratic perception of medicine, the founder and Director of Neo-Hippocrates school and also the Founder and Vice President of the Panhellenic Naturopathic Association (Greece) After a long-term process and action in the field of unified Natural Care system have managed to create his own therapeutic model that has proved beneficial to the sick and healthy.

I am also representative of the ANME -European Association of natural medicine for Cyprus/Greece. After a long-term process and action in the field of unified Natural Care system have managed to create my own therapeutic model that has proved beneficial to the sick and healthy.

Member Cyprus Naturopathic Association

Dr. Andreas Afxentiou. Paphos-Cyprus):
Dr. Physiopathy-Acupuncture-Kinesiopathy
President Cyprus Acupuncture Association
E-mail-p.r.c@cytanet.com.cy - 00357-99699141

Andreas Afxentiou has completed his Naturopathy and Acupuncture practitioner Diploma studies with Neo-Hippocrates School and CNM College of Naturopathic Medicine U.K . He also has studied Kinesiotherapy in a Greek University and continued his studies of Naturopathy & Physical Therapy with the University of America College of Natural Health Sciences where he later earned his degree. Andreas Afxentiou is a distinguished Naturopathic Practitioner who has amazing therapeutic , always making a positive impression to his patients and he is famous and well known Therapist in Cyprus and Greece. Personal responsibility for health - prevention and treatment is the central idea of Andreas Afxentiou. He is always working towards a unified therapeutic system that serves the human being and not the commercial interest. Andreas has stated many times that there is no doubt that conventional medicine cannot provide all the answers / solutions to the many daily, deadly diseases, which is why an ever-increasing number of people are looking for treatment options to their health problems. At the forefront of this revolution is natural healing, a system focused on promoting health and curing the disease by natural means. Knowledge of the topic of natural hygiene is of paramount importance to today's world in which strokes, cardiovascular, diabetes, and cancer have become epidemic worrying.

Dr. Paschalis Iliopoulos(Drama-Greece):

0030- 2521030665, 0030 6944531010
Dr. Physiopathy - Nutrition-Orthopedics

Paschalis Iliopoulos has completed his Practitioner Diploma Naturopathy and Nutrition studies with Neo-Hippocrates School Diploma of Naturopathy from CNM College of Naturopathic Medicine U.K. and a degree in Health Science/ Gerontology from the University of America College of Natural Health Sciences

Paschalis is a dynamic presence in the field of natural non-drug prevention & treatment in Thessaloniki Greece where he maintains a famous Naturopathic -Gerontology Therapy Centre.

He is a practitioner with specialized knowledge and clinical experience. He believes in anthropocentric orientation - he is primarily concerned with

restoring the health of the patient by naturally harmless means and considers any other ethics of commercializing the good of health as rejectable and condemnable.

Dr. Nikolaos Vrousgos

Email: n_vrousgos@hotmail.co.uk

Doctor of Naturopathic & Clinical Gerontology Specializing in Anti-Aging, and holistic treatment of psychosomatic health problems by natural means. He has studied in Australia Natural Medicine for many years with a real passion and interest in Nature Cure philosophy.

Education He has obtained a specialty in Gerontology (B.HSc-Gerontology / Charles Sturt University and **MA.Clinical Sc-**Healthy Aging & Aged Care / Southern Cross University**.** He has published several articles and lectured on Social and Medical topics. He has worked for over 25 years in nursing homes, institutions and welfare.

On the basis of the doctrine “first and do no harm’ his main principle is to direct the sick and the desperate suffering human beings to the natural way of life, natural prevention and treatment, with natural resources and above all safely. For many years he preaches that imperative is the return of medicine to its roots, i.e. to Hippocrates methods of treatment, adoption of genuine traditional methods of treatment without, of course, satanic ideas and magic medicine

He is interested in a holistic approach to health problems, not just the "myopic" symptoms, but the causes that caused the problem.

According to Dr. Vrousgos there is no "opposition" in the "monocracy" and "omnipotence" of the prevailing chemical Pasteuric Medicine. That is to say, there is no other view, other opinion, dialogue, critical thinking and communication with the holistic natural traditional Neo-Hippocratic medicine.

So people of delusion and financial interest will unfortunately continue to tell us that our health problem is of "unknown etiology," and we will hear them freaked out swallowing one pill over another, and life goes on. , and from here others go with the "medical" health problems to be the modern pandemic unless we support and spread Naturopathic therapeutic approaches.

Dr. Panagiotis Drakopoulos N.D.

(Greece-Cyprus)

Zone Com Info (info@zone.com.gr) 0030-95-100199

Dr. Panagiotis Drakopoulos has completed his Naturopathy Practitioner Diploma studies with Neo-Hippocrates School, He has a Diploma Homeopathy and Nutrition Dietetic Studies from Greek College and went further to earn his Gerontology degree from the University of America College of Natural Health Sciences.
He has also obtained after examination a Certificate of Mediterranean Zone Diet Specialist) and Specialist on Inflammatory Heath Problems) from I.R.F

Dr. Drakopoulos is delighted that the UoA University has opened the door of knowledge for all and shed some light in the darkness of ignorance. As everyone would expect in this fascinating and rapidly changing environment. Students will find that studying with the UoA will challenge and evolve them as individuals, and we are sure that they will also find a very satisfying and amazing experience.

He always stress that our objective should not be the disease but health. He believes in the unity of disease. The doctor must be a philosopher and scientist and never a simple technician. His motivation was to share the good that he knows can come from using natural medicine appropriately. It can literally change people's lives.

No doubt conventional legal medicine falls short of providing all the answers to everyday diseases and an ever increasing number of people are seeking out Complementary natural therapies.
